acknowledgments

We wish to thank the program chairpersons and association executive officers for their aid and cooperation in the preparation of Supplements, which are produced on a tight schedule for distribution at the association annual meetings. And thanks also go to our staff, for their diligent efforts under deadlines, and to the staff of Science Press, for their help in the speedy production and shipping of our publications.

Our appreciation goes also to the publishers who send us their journals gratis, and to the many editors who include detailed, informative abstracts of the articles in their journals.

introduction

This volume contains the cumulative indexes for all seven issues of **sociological abstracts** (set) Volume 44, 1996. Each issue consists of a body of abstracts of articles/papers published in the serial literature, or presented at association meetings, and enhanced bibliographic citations of dissertations, classified into broad and narrow subject matter areas meaningful to sociologists and other social scientists. There are 29 broad subject areas and 94 narrow areas.

Each of the six regular set issues opens with a Table of Contents listing the classification areas under which the abstracts are organized. Following the classified abstracts section are an author index, a source index listing the journals abstracted, with a bibliographic entry for each item, and a detailed subject index. Also included in each set issue is an issue of the International Review of Publications in Sociology (IRPS), containing bibliographic listings of book reviews and abstracts of books and book chapters. The author and source indexes of IRPS issues 83-88 are merged into this Volume 44 cumulative index.

The seventh see issue is the Conference Abstracts Supplement (CAS), in which the supplements of abstracts of papers presented at conferences during the year are bound (in 1996, Volume 44, Supplements 178-179). Also included are a Late Arrivals section for abstracts that arrived after completion of the supplements, and author and subject indexes for all entries, which are merged into this Volume 44 cumulative index.

Each see abstract or bibliographic listing is given an accession number, as described on page v.

A list of the documents included in sa Volume 44 and their accession numbers follows.

(a) The Serial Literature

There are 16,057 abstracts from the published serial literature and citations of dissertations (selected from Dissertation Abstracts International). Each bears a five-digit number preceded by a two-digit representation of the year. The first abstract in Issue 1 is 9600001. Volume 44 contains the accession numbers listed here.

(d) Dissertation Citations

The dissertation citations, encompassed within the main body of abstracts in each see issue, include the order number as registered in *Dissertation Abstracts International*, A: The Humanities and Social Sciences, & C: European Abstracts. Purchases can be made by writing to: University Microfilms International, 300 N. Zeeb Road, Ann Arbor, MI 48106. Telephone (313) 761-4700.

The cumulative indexes are printed in the following sequence: Author Index, Source Index, Subject Index.

CUMULATIVE SUBJECT INDEX

This index contains subject entries for abstracts of the articles/papers published in the serial literature, dissertations selected from *Dissertation Abstracts International*, conference paper abstracts, and abstracts of books and book chapters included in the İRPS. Each entry is followed by the accession number of the related document.

CUMULATIVE AUTHOR INDEX

This index contains five types of authors: those whose articles are abstracted from the serial literature or whose dissertations are listed in bibliographic form (five-digit accession number, 00001-16057), authors who present papers at an association/conference meeting (letter prefix S followed by a five-digit number), authors of books and of book reviews (letter prefix "a" followed by a six-digit number), and authors of books and book chapters abstracted (letter prefix "c" followed by a five-digit number). All accession numbers are preceded by a two-digit representation of the year of publication in SA.

CUMULATIVE SOURCE INDEX

This index lists all serials, with their addresses, from which abstracts and book review listings have been published in Volume 44. The complete list of serials that see screens is presented in the User's Manual, which is updated every three years.

Effective with Volume 30, the extent of coverage of the content of each journal listed is identified: <u>Fully covered</u> - every article, research note, and book review that appears in the journal is abstracted or cited; <u>Partially covered</u> - a selection of relevant articles, research notes, and reviews are abstracted or cited; or <u>Infrequently covered</u> - a designation used for serials which seldom carry materials pertinent to our field of interest. The designations are: SA-F, SA-P, SA-I.

The same information is presented for sa's sister publications - Social Planning/Policy & Development Abstracts (SOPODA), and Linguistics and Language Behavior Abstracts (LLBA).

The abstracts and book reviews published from a given serial are listed immediately under the title and address of the serial, in sequential page order, with a complete bibliographic entry, followed by the set accession number.

The abstracts of papers presented at association meetings are listed under the name of the association, ordered by accession number.
